# Input the colors you want.

Mitsui's range of color scanners get the brilliant colors and exquisite detail into your Mac or IBM compatible for creative composition with the most popular drawing, painting and publishing packages.

# Output the colors you need.

Nothing parrots a Pixelmaster for precise pixel placement. Howtek printers publish your periodicals with unparalleled panache.

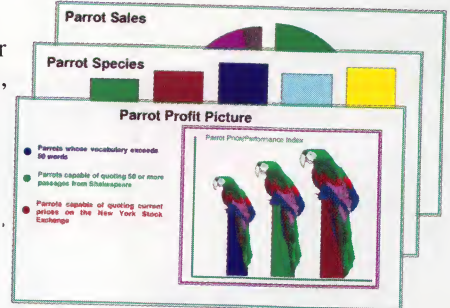

Mitsui Computer has scanners and printers to let you master the ins and outs of color computing.

Start with dazzling and colorful photos, spectacular drawings of your new product line, or vibrant schematics of your most ambitious new project. Then, with a Mitsui color scanner, capture every detail, every colorful nuance, with unprecedented attention to true values.

Next, using your favorite QuickDraw or PostScript application on your Macintosh II, or PostScript or Windows application on your IBM or compatible, create and combine all the other elements you need. Crop, re-size, retouch; import text, change and scale fonts at will.

Now, perform a minor miracle; print your output exactly as you composed it-with 262,000 colors and independently scalable fonts at 240 dpi-on ordinary office paper! Howtek's Pixelmaster color inkjet printer is now compatible with PostScript, QuickDraw, Windows HPGL and HP-PCL. No other printer can match its color resolution and cents-per-page performance.

If you want more lifelike detail in your desktop publishing, graphic arts, CAD, modeling or business presentations, Mitsui scanners together with the Pixelmaster offer a brilliantly affordable solution.

Pixelmaster lets you present a prettier profit picture - with more powerful pies, charts and graphs.

MITSUI COMPUTER STAND

# A Welcoming Message from the Managing Director of Apple Computer Australia

Welcome to the Fourth Annual Australian Macworld Expo — the biggest and best so far.

This year's Expo is full of firsts. For the first time a conference and seminar program has been organised to run in parallel with the Expo.

These sessions are designed for people who want to know more about Macintosh solutions and cover such areas as Desktop Publishing, Computer Aided Design (CAD), Computer Aided Manufacturing (CAM), Multimedia and a host of other topics.

It's also the first time the Macintosh Class Awards will be staged in conjunction with the Expo and winners will be announced at a special Banquet Dinner on November 3 at The Menzies Hotel.

Another first is that Melbourne will be getting its own Macworld Expo next year starting on June 7. Not to be outdone New Zealand will stage its first Macworld Expo in Auckland starting on May 1.

There's something for everyone here, with more than 86 companies exhibiting during the three days, with more than 100 companies and their products actually represented.

Given this tremendous turnout from our Third Party partners, we are expecting more than 12,000 people to pass through the turnstiles to have a look at the latest and greatest in Apple technology.

It's an exciting Macworld Expo, one that will give you a glimpse at the technology available to provide solutions for all market sectors — from small business to big business and home to education, there's something for everyone.

**David Strong**

## Welcoming message from the Managing Director of IDG Communications

Macworld Expo has grown into one of the most important events in the Australian computing calendar.

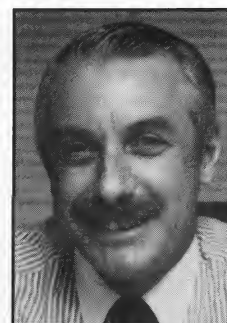

Each year, we've added new dimensions to the show and without doubt, the '89 Australian Macworld Expo is the biggest and best yet.

The Sydney success is now a springboard for new initiatives next year — a Macworld Expo in Melbourne in June preceded by the first in New Zealand in May.

Macworld is of course, a Macintosh show. We work closely with Apple throughout the year and commend them for the continued expansion of the exciting Mac family which is generating more and more exciting applications.

We're confident everyone will experience three valuable and rewarding days — vendors, exhibition visitors and conference delegates. There's something at the Expo for all — those already involved with Mac; the newly interested; the intrigued; and those ready to invest in Mac right now.

Thanks for coming and have a wonderful Mac-time.

**Alan Power**

# SYMANTEC MAKES LEADERS.

**THINK C\***: Ultra-fast, C language programming environment. Chosen to develop Aldus Pagemaker 2.0, Adobe Illustrator and MacWrite II. Awards: MacUser Editor's Choice, 88 & 89, Software Publisher Association's Best Programming Language, Macworld World Class, BYTE Award of Distinction, 89.

**MORE II**: Advanced business productivity tool based on outlining. Perfect for organizing, planning, refining and presenting your ideas. Awards: Five Mice rating, MacUser, 89; Macworld World Class 87, 88 & 89.

**THINK Pascal\***: High-performance, easy-to-use Pascal programming environment. The #1 choice for learning and professional programmers. Awards: Five Mice rating, MacUser, 88; Macworld World Class (Australia), MacGuide Golden Gavel, 89.

**SUM**: A comprehensive set of Macintosh disk utilities for automatic data protection, fast data recovery, and improved hard disk performance. Awards: Five Mice rating, MacUser, MacUser Editor's Choice, Macworld World Class, 89.

**SAM**: Detects, eliminates, and guards against both known and unknown viruses. Also repairs virus-damaged files. Although just released, SAM is already the recognized leader in its field.

For Symantec, leadership stems from a passion for uncompromising quality and a simple formula. We ask our customers what they need today, add power for the future, and craft it all together into software that professionals can easily use. That's why Symantec's Macintosh products are so highly acclaimed, by both critics, and customers. We make software for leaders in business, who in turn, make our products leaders in software.

For information on MORE II, call PC Extras at Sydney (02) 319-2155, Melbourne (03) 486-1999, Brisbane (07) 818-1400 and visit Booth #417.

For information on other Symantec Macintosh products, contact Techflow at (06) 355-1988, in Sydney at (02) 740-6415 and visit Booth #435.

## T H A N K Y O U M E S S A G E

It is always difficult to thank all those deserving a 'thank you' in an event such as Macworld. Three days of show takes hundreds, if not thousands of hours of planning and implementing.

I would like to thank Apple Computer Australia for their tremendous support this year and of course all those exhibiting companies for their participation.

In particular Cheryl Bresland, Samantha Rider and Kate Bauer deserve a special mention for their efforts and for putting up with me. It is never an easy task to co-ordinate close to 100 companies.

To all those contractors involved in the event – Thanks!

## **Anchor Pad (Aust) Pty Ltd**

5/159 Victoria Road, DRUMMOYNE NSW 2047

PH:(02) 819 7322 FAX:(02) 811 606

Contact: Darrell Bertram

You need your MAC and your MAC needs ANCHOR PAD.

Macintosh computers are one of the hottest items on thieves shopping lists.

With the annual value of PC-theft in Australia being over \$22,000,000.00, you can't leave your MAC and assorted peripherals without the protection of Anti-Theft Devices.

There is an ANCHOR PAD to suit your MAC or any other desktop equipment.

Protection is assured without drilling either you MC or the desktop upon which it sits.

Should the ANCHOR PAD be defeated and your equipment stolen, ANCHOR PAD (Australia) Pty Ltd, will pay up to \$5,000.00 towards the replacement value of stolen equipment.

Over 6,000 desk-top computers in Australia have ANCHOR PAD protection.

*Stand 552*

Contact: John Donlevy — Advertising & Events Manager

Apple Computer, the leader in personal computing, will show and demonstrate a full range of Macintosh products, that have provided for millions of people the freedom to think — to explore — to try — to

*Stand 200*

question to learn — to do things better, faster, more smoothly, easily, intelligently — or just differently. Products and solutions that give you "The power to be your best".

The stand comprises 6 major areas of focus — "The Macintosh Portable" — your chance to see, probably for the first time, this exciting new product.

"The Macintosh Advantage" — An area where the new user can learn and experience for themselves the ease of use and intuitive nature of Macintosh.

"Information Management" — Electronic Documentation, Executive Information Systems and Multi-Media presentations that will excite and stimulate you.

"Publishing and Graphics" — Animation, professional design, scanning and video capture, editing and page layout, high end graphics, Hypercard and more for you to experience and see demonstrated.

"Learning" — Shaped by tomorrow's educational needs and powered by Apple's continued dedication to learning, a variety of solutions will be demonstrated that can take students from primary, through secondary and tertiary education out into the work force.

"Apple Financial Services" — AppleRent and AppleLease facilities that can give you the means to buy your Macintosh now.

## **Apple Users' Group (Sydney)**

legal documents and technical documents, and incorporates smooth intergration of graphics and powerful DTP capabilities. Full Impact combines a powerful easy to use spreadsheet with strong DTP-like presentation capabilities with a complete developer language.

### **AAPDA**

*Stand 260*

**PO Box 167, ERSKINEVILLE NSW 2043**

**PH:(02) 550 5533 FAX:(02) 51 2486**

**Contact: S. Farmer — Manager**

As an independent programmer or developer of Apple-compatible software or hardware, you need fast access to the latest technical information and development tools.

Now there's a place where you can get it: the Australasian Apple Programmer's and Developer's Association (AAPDA).

AAPDA is a one-stop source for the Apple programmer. Members get timely and easy access to many of the Apple development tools and technical information necessary to speed development projects. No more wondering, "Where do I go for the information I need?"

Whether you're looking for programming tools, technical notes, or manuals, now you have a single, convenient source. All these Apple materials — along with selected products from other vendors — are available to AAPDA members with one simple phone call.

### **Autodesk Australia Pty Ltd**

*Stand 420*

**9 Clifton Street, RICHMOND VIC 3121**

**Contact: Sue Osborn — Marketing/Promotions**

AutoCAD on the Mac II places a host of sophisticated design features at your fingertips. Such as; MultiFinder compatibility, Clipboard Support, File Portability, Windowing, File Dialog Boxes, Pull-down, Pop-up and Tearoff Menus, 3-D Design, 3-D Surface Modelling.

AutoCAD on the Mac II is available at authorised AutoCAD Macintosh dealers nationwide. More than 50 third-party software packages will run in conjunction with AutoCAD on the Mac II.

By selecting AutoCAD as your design software, you're not only choosing the CAD industry standard, you're also making the choice to stay on the frontier of CAD technology.

### **Barbosa Personnel**

*Stand 449*

**Address: Level 15 88 Pitt Street Sydney 2000**

**Contact: Fiona Smith Marketing Co-ordinator**

Barbosa Personnel have specialised in the recruitment of highly skilled secretarial and office support staff for ten years. In October 1988 an Apple Mac Training Programme was established complementing our Temporary Division to answer a need in the market place for skilled temporary operators in the expanding field of Desktop Publishing.

Barbosa's services now extend to the Northern and North Western Districts with the recent acquisition of a personnel agency in Eastwood. Our staff are fully conversant with the specific needs of an Apple Macintosh environment. For all your staffing requirements call the Specialists.

### **Bose Australia Inc**

*Stand 465*

**11 Muriel Ave RYLDALMERE NSW 2116**

**PH: (02) 684 1022 FAX:(02) 684 1665**

**Contact: Harold Isberg — Technical Representative**

The Sound System Software (S3) family from Bose Corporation is a series of desktop computer programs designed specifically for professional sound companies. (S3) programs currently run on the Apple Macintosh family of computers, and can only be licensed from Bose Corporation. The object of the S3 family is to provide tools that encompass all phases of the modern professional sound system business, including system conception, specification, design, installation and documentation. To achieve this, the S3 family will continually be developed, along with new technology and techniques for sound systems, with the addition of new programs and the constant revisions of existing programs.

### **Cambridge Z88**

*Stand 449*

**PO Box 106, NEUTRAL BAY NSW 2089**

**PH:(02) 958 2797 FAX:(02) 958 2105**

**Contact: Neil J. Bryant**

The ideal companion for your Macintosh — the unique Cambridge Z88 Ultralite Laptop computer.

An A4 sized, 2lb laptop that comes complete with a full set of managerial s/ware and utilities that enable you to wordprocess, work on spreadsheets etc, etc-absolutely anywhere anytime and for up to 20 hrs on 4xAA batteries!!! — and then transfer your files or documents, fully formatted, into (or from) your Mac, with just a few keystrokes!!!

"Portability and Power" — up to 1.5Mb of Ram — takes on new dimension when applied to the amazing Z88.

Test "fly" one today — or any day — and understand the meaning of "freedom", for the first time!!

And last, but by no means least, the "bottom line", the basic machine inc s/ware and tax for under \$1,000:00 — what a great "bottom line"!!!.

### **CD-Networks**

*Stand 467*

**26 Crown Street, WOOLLOOMOOLOO NSW 2011**

**PH:(02) 357 1400 FAX:902) 357 3566**

**Contact: Steve Gleeson — Managing Director**

CD-Network's is a network distribution company, specialising in PC connectivity solutions.

CD-Networks latest product MACNode provides seamless connectivity between MACINTOSH and PC based Local Area Networks.

MACNode supports Arcnet, Ethernet, Token Ring and provides direct connect for MAC users to run DOS programs and gateway emulations directly on the MAC screen. Groups of Macs can share a MACNode via a Net serial device, and MACNode works on all Macs. Remote access is also supported, with Tops, Appleshare and Appletalk network cabling compatibility.

Other products distributed include CD-ROM Network File Server, Natural Progression Accounting software, Crosspoint Email and Lanmodem/Cosessions remote communications software.

### **Club Mac**

*Stand 249*

**Box 213 Holme Building, SYDNEY UNIVERSITY NSW 2006**

**PH:(02) 699 1694**

**Contact: Ross Aubrey — Secretary Treasurer**

Club Mac is a non-profit Macintosh user group organisation that is run by a group of Macaholic volunteers. Its main objects are to procure, generate, collate and disseminate Mac related information to its members and to establish communication and exchange information with other user groups both in Australia and overseas.

Part of the numerous activities undertaken by Club Mac are to conduct monthly meetings for Mac users; produce a high quality information journal called MACinations; maintain a Public Domain Library (which currently has over 250 800K disks — that's over 200Mb of free software); and to run a bulletin board on a 24 hour a day basis to provide members with a variety of forums for discussion and exchange of information, Hot PD, and an electronic mail service.

### **Computer Drive Pty Ltd**

*Stand 445*

**222 Kingsway, SOUTH MELBOURNE VIC 3025**

**PH:(03) 690 1655 FAX (03) 696 2647**

**Contact: Michael Chapman — Managing Director**

COMPUTER DRIVE a supplier of Leading Edge Technology for over 3 years is pleased to announce the release of the following:

600MB Optical Erasable Rewritable Drive; Canon Still Video/Image Grabber Interface; 400 and 800 DPI Postscript Laser Printers; Uninterruptable Power Supply/Mains Power Filter Systems specifically for the MacPlus/Se range; Video Cards for Apple Portrait, two page Monitors connecting to the Mac SE/SE30 and 800 DPI 256 Greyscale Scanners.

Please visit at Booth # 445 or call on (03) 690-1655 or Fax (03) 696-2647

**Computerland Solutions** *Stand 540*  
46-48 Pyrmont Bridge Road, PYRMONT NSW  
PH:(02) 552 5900 FAX:(02) 692 0111

**Contact: Tania Netterfield — Marketing**

Computerland Solutions is THE BIGGEST AND BROADEST provider of Micro-Based Solutions worldwide offering you the TOTAL SOLUTION. We have monitors and humans able to provide demos showing graphical, accounting, word processing, data-base, network and other applications. Our ability to address potential/real needs is based on our worldwide presence and buying power and backed by our experience as Apple's first ever dealer both worldwide and in Australia. As industry leading suppliers of non-Apple microcomputer product such as IBM, Hewlett Packard, Epson, Microsoft and Aldus Corporation we are also demonstrating and can assist with maximising performance and productivity in a multi-vendor environment.

Visit our stand and discuss which combination will properly address your particular situation: once your decision is clear, take advantage of our special show incentives celebrating our presence here.

**Datamatic Pty Ltd** *Stand 125*  
16 Suakin Street, PYMBLE NSW 2073  
PH:(02) 449 8133 FAX:(02) 488 2450  
**Contact: G. Stubbs — Product Manager**

Datamatic has officially arrived in the Macintosh World. Datamatic is a Wholesaler/Distributor representing several overseas suppliers of peripherals for Macintosh systems, namely CalComp and Novell. From CalComp, this range of products includes input and output devices such as, plotters for the CAD/CAM environment including the 1020 series pen plotters and the new DrawingMaster direct imaging plotter, digitizers for CAD and Artwork, namely the 2300 series, available in A4, A3 and A2 sizes, large format displays and video cards for DTP, CAD and artwork and scanners for DTP and Graphics display work. From Novell, Datamatic has the 'Netware for Macintosh' product which allows connectivity and file sharing amongst Macintosh and PC users.

**Dataplex Pty Ltd** *Stand 546*  
PO Box 541, LILYDALE VIC 3140  
PH:(03) 735 3333 FAX (03) 735 3830  
**Contact: Douglas Noble — Marketing Manager**

Dataplex will display its Optical Data Link, a unique solution for linking Appletalk networks in different buildings via line of sight infra-red communications. Designed and manufactured in Australia, the DPX-725 Optical Data Link provides full Appletalk connectivity at 230 kbps with no degradation of data rate, and is ideal for organisations where Macintoshes are dispersed, such as on campuses or across public highways. It provides a cost effective alternative to low speed communications over Telecom circuits. Dataplex will also display its range of modems and data communications equipment.

**Data-Tech Systems** *Stand 144*  
P.O. Box 371, BLACKBURN 3130  
PH (03) 894 1177 FAX: (03) 670 8997  
**Contact: Craig Winkler**

Data-Tech Systems is the Australian distributor of the Last Accounting suite of products for the Macintosh. Specialising in financial and accounting solutions, Data-Tech Systems is also involved in expanding the range of products available, and has recently released an Australian-written module. This approach of adding local value to products originally written overseas has been successful, and other new modules are planned. The company also has a strong commitment to supporting the software it provides, borne out by the rapidly expanding user base.

Data-Tech's distributor in NSW and ACT, FinancialMAC, are assisting them at the Expo.

**Delairco Publishing Solutions P/L** *Stand 120*  
12 Barcoo Street, EAST ROSEVILLE NSW 2069  
PH:(02) 406 0300 FAX:(02) 406 4383

**Contact: Stuart Lincolne — Marketing & Business Development**  
Delairco is the leading Apple Macintosh-based publishing solutions organisation in Australia. Delairco supplies integrated solutions comprising Macintosh computers, networks, image and OCR scanners, publishing, image processing and colour design software, the Linotype PostScript Font library and the industry-leading high resolution Linotronic PostScript Imagesetter range. Delairco supports its publishing solutions with first-class applications and support and recently began offering classroom training in Sydney and Melbourne dedicated to publishing, typography, design and image processing on the Apple Macintosh.

Delairco is marketing the MicroDynamics MARS system which provides a cost-effective multi-user Apple Macintosh networked solution which integrates optical disc technology for image management, document archiving and retrieval applications.

**Desktop People Pty Ltd** *Stand 450*  
Suite 3, Level 8, 97 Pacific Highway, NORTH SYDNEY NSW 2060

PH:(02) 954 3425 FAX:(02) 954 3205

**Contact: Joann Pretty — Manager**

Desktop People specialise in providing both permanent and temporary staff to the Desktop Publishing, Computer Aided Publishing/Design and Multi Media areas. Our offices are located in Sydney, Melbourne and Brisbane.

**Desktop Publishing & Graphics Magazine** *Stand 415*

LMB 27 (2/200 Goulburn St), DARLINGHURST NSW 2010

PH:(02) 281 2699 FAX (02) 281 4343

**Contact: Phillippa Yelland — Editor**

Desktop Publishing & Graphics Magazine is the only publication dedicated to guiding you through the information jungle on electronic publishing. Each month from March to December, there are how-to articles; reviews of hardware, software and peripherals; news; graphics updates; and user stories.

All the team from the magazine will be on the stand, so take the opportunity to meet the faces behind the names. See how the magazine is put together, and the latest technology used to put together real publications.

Also, you can enter the magazine's competition to win valuable prizes, and take advantage of the special show subscription offer.

**Desktop Training Systems** *Stand 135*  
29/a Aquatic Drive, FRENCHS FOREST NSW 2086

PH:(02) 975 1466 FAX:(02) 452 3493

**Contact: Kylie Hall**

Desktop Training Systems recently appointed as a new distributor for CA-Cricket, will be showing the range of Cricket Software — Presents, Graph and Draw.

Also on display will be TextPert, Europe's leading OCR Software package, Grammatik, a grammar checker, and Dynodex, an electronic Filofax address book system.

**Dimension Graphics Pty Ltd** *Stand 212*  
15th Floor, 132 Arthur Street, NORTH SYDNEY NSW 2060  
PH:(02) 929 5855 FAX:(02) 929 8317

**Contact: Vicki Ronson — Marketing Co-Ordinator**

Dimension Graphics have six years experience in presentation graphics and electronic publishing.

The Lasergraphics LFR, a professional desktop film recorder will be used to produce slides from Macintosh applications. The LFR can be used with all computer systems — Macintosh, IBM PC or Mainframe. Pixie, Zenographics, winner of the NCGA computer graphics shootout in '88, will be shown producing quality presentation materials quickly and simply. Sophisticated Tektronix terminal emulation using TGRAF will be demonstrated. MathCAD, the software tool for calculating minds, will also be displayed. See the latest electronic scratch-pad. Colour and Black

# If you've got room for a copy of Macworld in your briefcase, you've got room for a Z88 Computer.

**FREE  
7 DAY  
TRIAL**

**YOU'LL WANT  
TO KEEP IT!**

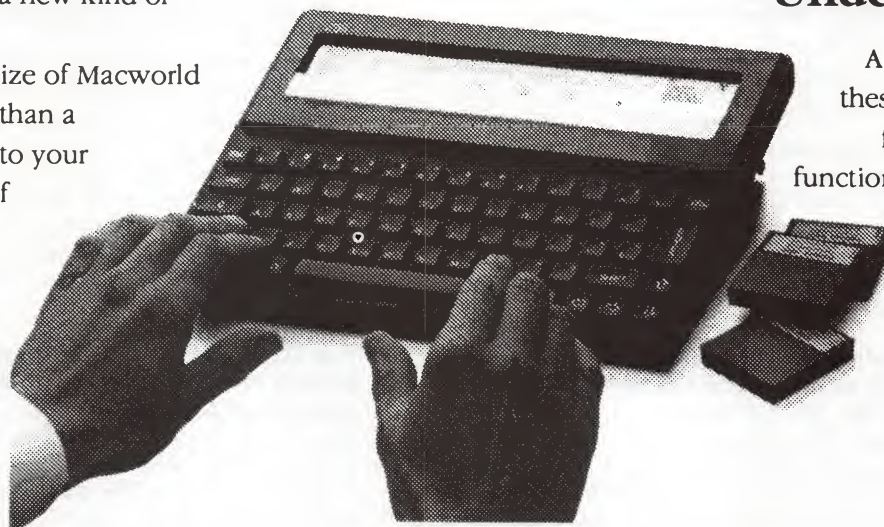

The Cambridge Z88 is a new kind of computer.

A computer that's the size of Macworld Magazine, weighs less than a kilogram, and drops into your briefcase with plenty of room to spare.

## **Compact & Compatible**

A portable compact computer that lets you work away from the office and transfer your documents to your Mac on return. Not only can you transfer information between your Z88 and Mac, you can also transfer to any IBM or IBM compatible PC.

A computer that comes with up to 1.5 Megabytes of memory plus in-built software like word processing, database, spreadsheet, diary and calculator, to name a few.

**Under \$1,000**

A computer with these features, and first-rate design functionality that costs less than a \$1,000.

**It's  
yours  
for  
7 days**

The Z88 Computer is on show at Macworld - Booth 464. If you're not immediately impressed, as a special Show offer, we'll arrange a no obligation, free 7 day trial. If you purchase the Z88 at Macworld, we'll throw in a FREE Case or a FREE Power Supply. Pop in for a brochure, see the Z88 demonstrated, and take advantage of these Macworld offers.

**CAMBRIDGE Z88 • BOOTH 464**  
**Z88 DEMONSTRATION • SHOW PURCHASE OFFER • 7 DAY FREE TRIAL**

and White Scanning will also be quite prominent on the Dimension Graphics stand.

**Digilink Systems Pty Ltd** *Stand 347*  
169 Sailors Bay Road, NORTHBRIDGE NSW 2063  
PH:(02) 958 0111 FAX:(02) 958 7238  
Contact: Murray Baker — Director

Digilink Systems Pty Ltd is a Data Communications company established in 1987 specialising in product distribution and turn-key solutions in data wiring systems for the corporate marketplace. Digilink distributes IBM third-party products which cater for Apple Macintosh.

Avatar MacMainFrame products which enable the Macintosh in the IBM 3270 environment to communicate with IBM Mainframe.

KMW products which provide communication with either System 36, System 38 or AS400.

**Electroboard Pty Ltd** *Stand 315*  
Level 12, 275 Alfred Street North, NORTH SYDNEY NSW 2060  
PH:(02) 957 5842 FAX:(02) 922 1885  
Contact: Warren Bolton — Managing Director

ELECTROBOARD is proud to be releasing, for the first time in Australia, the new version of the P.C. Viewer range. The PCV5 offers the Mac user the ability to project in full colour the Mac II or Mac SE/Plus screen image. The PCV5 is placed on the stage of an overhead projector, plugged into the monitor port on a Mac II and a full colour image is projected on to the screen or wall. Using the latest technology in triple twisted liquid crystal display technology the PCV uses eight brilliant colours to display and project the MAC II screen.

In addition ELECTROBOARD will be presenting the Ultimate Presentation System. The PCV4 utilises a megabyte of memory to capture and store over 80 Mac II screen images. This enables the user to present Mac II screens at a seminar, meeting or lecture without having to have a PC present.

**Elmeasco Instruments Pty Ltd** *Stand 353*  
18 Hilly Street, MORTLAKE NSW 2127  
PH:(02) 736 2888 FAX: (02) 736 3005  
Contact: Paul R Twigg — State Manager, NSW  
National Instruments and Elmeasco Instruments will be demonstrating the Labview package. Labview is a graphical programming environment and is the most powerful off-the-shelf data acquisition and control software to date.

It gives you captive and analytic ability without requiring expensive dedicated test equipment. Labview is designed to work with the National Instruments series of internal MAC boards, (Analogue/Digital, Digital/Analogue, Digital Input/Output, Analogue Output, IEEE-488 and DMA Controller).  
On display will be a selection of boards along with LabView running on a MACII and MAC SE.

**Electronic Publishing Solutions** *Stand 462*  
Level 3, 323 Darling Street, BALMAIN NSW 2041  
PH:(02) 555 7895 FAX: (02) 818 3506  
Contact: Harry Bray — Proprietor

EPS is a recently established Apple Associate reseller. The company was formed to specifically meet the needs of Macintosh owners who use the Macintosh for publishing related tasks. EPS has also formed a strong 2nd hand Macintosh division hoping to provide cheap but reliable entry-level Macintosh systems to the general public.

**Firmware Design Pty Ltd** *Stand 205*

J.I.T. (Australia) Pty Ltd is the authorised distributor and representative for the following companies.

- 1) QMS — High performance laser printers: ColorScript; PostScript.
- 2) TECMAR — Tape Back Up: 40 Mb — 2.2 Gb internal and external.
- 3) WESTERN DIGITAL - External HD: Preference 20 and 40MB.
- 4) CHINON: Mac Scanner; External Floppy Disk Drives; Image Copiers; CD Rom Players.
- 5) QUANTUM — 3.5" High performance hard disk drives: 42, 84, 105, 120 and 170 Mb SCSI drives.
- 6) SIEMENS — 5.25" High performance hard disk drives: 308 — 760 MB SCSI.

J.I.T. Australia is also the authorised repair centre for Western Digital, Tecmar, Wangtek and Chinon. Our new headquarters in Victoria has a fully equipped service laboratory, utilising the same diagnostics equipment as used by our principal suppliers. Facilities also include a class 100 clear cubical. We welcome dealers, manufacturers and corporate users to discuss specific product applications including product demonstration.

### **Keyway Computers**

*Stand 215*

**Unit 2B Botany Bay Industrial Estate**

**2-12 Beauchamp Road, MATRAVILLE NSW 2063**

**PH:(02) 316 6599 FAX:(02) 316 6875**

**Contact: Lucas Mueller — Managing Director**

Keyway Computers imports and distributes application software for the Apple and Apple Macintosh. Specialising in productivity, communications and connectivity software, Keyway has the complete office solution. Our Sales Support division have extensive technical experience in developing the productivity solution that best suits your individual needs. This ongoing support is continued through to our Training Department, addressing the need for staff training, in the entire Keyway product range. Our Technical support is also available and easily accessible via telephone, Quickmail, Applelink or facsimile.

Keyway are also to release their own product, KeyPlan. KeyPlan is a planning tool for establishing and organising ideas in an easy to use, fully integrated package.

### **Laser Peripherals/Smart Technology**

*Stand 340*

**Unit 10, 222 Headland Road, DEE WHY NSW 2099**

**PH:(02) 905 0050 FAX:(02) 905 0991**

**Contact: Bill Northcott — Director**

Laser Peripherals and Smart Technology are specialist distributors for high end Publishing, Graphics and C.A.D products. As the power of the Macintosh increases so does the capabilities of software to supply solutions to specialised areas, e.g. typographical, architectural, interior design, engineering design or general office technology.

Amongst the product displayed will be QuarkXpress, Xerox Datacopy Scanner, Accutext ICR software and Megascreeen (large monitors), for Publishing and Graphics. Also ArchiCAD, the complete architectural solution, TopCAD and Dimensions Presenter, a new high end photo-realistic imaging software. Both Bill Northcott and Rob Keeping will be available to discuss your requirements.

### **Laser Recharge (Aust) Pty Ltd**

*Stand 454*

**Suite 5, 159 Victoria Road, DRUMMOYNE NSW 2047**

**PH:(02) 813 603 FAX:(02) 811 606**

**Contact: Colin Travers**

Laser Recharge services used Canon CX and SX cartridges. Using the last no-drill technology of the largest refill company in the world.

The benefits and cost savings are enormous. Including pick up and delivery anywhere in Australia. In more and more offices, "recharging" has become the viable cost effective preference over simply throwing away that expensive depleted toner cartridge. When you think about it, it seems ridiculous to throw away a high-tech, complex and perfectly sound cartridge, simply because the toner is exhausted.

### **Learnware Technologies**

*Stand 253*

**7th Floor, 35-37 Chandos Street, ST LEONARDS NSW 2065**

**PH:(02) 906 3265 FAX:(02) 438 3886**

**Contact: Michelle Kerr**

Learnware Technologies specialises in the design, development and implementation of learning and decision support systems. Learnware's approach is based upon the product called Authorware Professional which integrates various engaging media into a unique software environment that lets you accomplish remarkable things.

With Authorware Professional you can create multimedia computer based learning and training systems of exceptional depth and interactivity.

Authorware Professional combines object-oriented authoring capabilities of exceptional power and with the ability to present information and knowledge through graphics, text, animation, sound and video. And it's designed to be compatible with the mixed computer environments found in many organisations. Applications are created on a Macintosh, and with Authorware PC they can be delivered on either Macs or MS-DOS computers.

Learnware can assist you to create engaging learning and decision support environments.

### **Letraset Australia Pty Ltd**

*Stand 400*

**Po Box 129, BROOKVALE NSW 2100**

**PH:(02) 975 1033 FAX:(02) 451 1815**

**Contact: Bob Bryce — Business Manager**

Macworld Expo 1989 will provide Australian Macintosh users the first opportunity to view the recently announced Letraset Studio line product range.

First announced at the recent Seybold Conference in San Francisco, the Studio line is the first set of Apple Macintosh based software tools, that will become as essential to graphics arts professionals as their pens, T-squares and knives.

This complete software "tool kit" offers professional level page design, true colour and monochrome grey scale imaging, creative headline and display typography, type and logo design — never before seen on a desktop computer.

The Studio Line of products consist of:-

DesignStudio — Professional level page design

LetraStudio — Creative headline display typography

FontStudio — Type and logo design

ImageStudio — Grey scale image manipulation

ColourStudio — 32 bit colour image manipulation

Founded in 1959, Letraset has an unsurpassed history of providing innovative design and colour graphic art tools. In 1961 Letraset revolutionised the use of type in design with the introduction of its Instant Lettering dry transfer technology. By making high quality typography available as transfer type in a variety of typefaces and sizes. Letraset gave designers a way to enhance the value of type as a design element. The Studio Line continues this tradition of providing quality tools for the professional designer.

### **MacNews (Niche Publishing)**

*Stand 452*

**155 High Street, PRAHRAN VIC 3181**

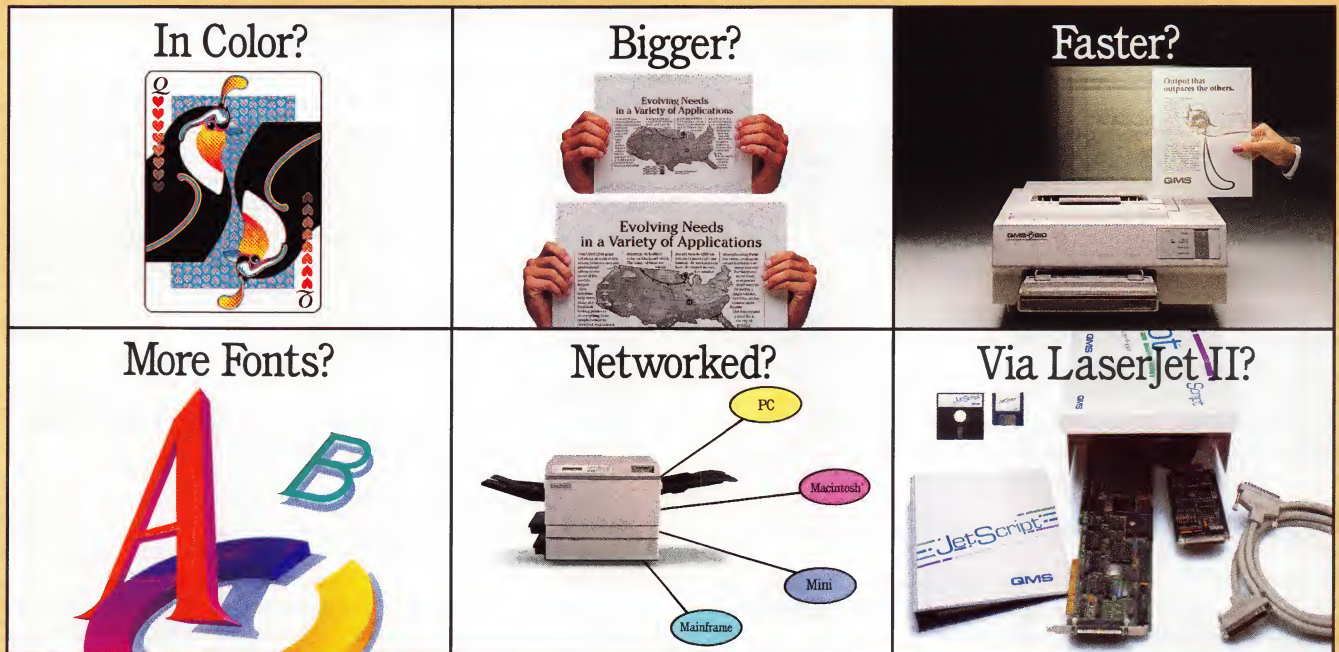

**PH:(03) 525 2144 FAX:(03) 525 2378**

**Contact: Henry Kobylanski**

MacNews is a tabloid Macintosh monthly with a heavy emphasis on the latest news — short lead times allows MacNews to bring out the very latest news such as new software and hardware releases, product updates and evaluations, and industry commentary. The aim of MacNews is to demonstrate how products are useful to the individual, rather than giving a list of product features and industry jargon which are left unexplained in relation to user needs. MacNews also contains free Mac classifieds, columnists who comment upon the trends within the Mac market, and case studies which show how Macs are being used in new and innovative ways.

# How do you like your PostScript?

QMS offers you Adobe® PostScript® in more ways than any other company. For example, QMS PostScript laser printers have QMS® ASAP™ (Advanced System Architecture for PostScript) to give you faster "first-page-out" performance. Plus you get more pages-per-minute options, and more typefaces standard. Choose from:

- **QMS-PS® 810** – fast page formatting and "blacker" blacks, for single workstations (8 pages per minute [ppm]).
- **QMS-PS 820** – fast page formatting for shared office environments or PC networks (8ppm).
- **QMS-PS 1500** – for more pages per minute on PC networks and minicomputers (15 ppm).
- **QMS-PS 2200** – handles paper up to A3 at a very attractive price. It's perfect for large

PC networks, minicomputers or mainframes, and it also adapts to UNIX® operating environments (22 ppm).

- **QMS ColorScript™ 100** – the world's first family of color PostScript printers. Capable of handling paper sizes up to A3.

QMS also offers the world's only PostScript upgrade for Hewlett-Packard's LaserJet™ Series II printers (**JetScript™**) authorized and approved by Hewlett-Packard. As well as for HP's® original LaserJet Series printers (**PS Jet +™**).

So to give your system the maximum PostScript performance possible, look to QMS. We'll give you more ways to meet your PostScript printing needs.

Contact: Patrick Weaver — Director

Micro Planning International are one of the world's leading Project Management Companies. Solve your management problems with our range of software, supported by some of Australia's most experienced Project Managers. "X-PERT" offers Macintosh users for the first time genuine 10,000 activity processing power linked to full resource and cost analysis, plus "Earned Value" analysis, two baseline schedules, multiple calendars with time units ranging from minutes to weeks, WBS, and much more. If the "X-PERT" is too powerful for your current needs, "Version 6" and barchart programmes offer easier to use solutions, with the option to upgrade in the future.

**Microsoft**

Stand 410

Unit 2 I Skyline Place FRENCHS FORREST NSW 2086

PH: (02) 452 0288 FAX: (02) 452 4387

Microsoft is the largest personal computer software developer in the World. Over 40 million people rely on Microsoft's family of products, and their Macintosh line of application software is a result of a strategic alliance with Apple computer that goes back to early development days of the Mac in 1981.

Microsoft's stand (410) will be demonstrating the 'Microsoft Office'; a fully functional, productive office environment that utilises Microsoft applications to run Word Processing, Spreadsheets, Business Graphics, Database and Electronic Mail to transfer and share specific workgroup files, electronic messages, and graphics across the network. These applications are all recognised industry standards.

**MicroTek/Image Products**

Stand 332

12 Barcoo Street, EAST ROSEVILLE NSW 2069

**“The Power of  
a mainframe seems  
pathetically wimpish.”**

**Professor J. Brooks Breedon**  
*Department of Landscape Architecture  
The Ohio State University*

## Announcing one professor's cure for insufferable courseware.

“In landscape architecture we respond to graphic images. It's just too complex to communicate a concept using text-based symbols. So when I discovered *Authorware Professional*™ — I immediately recognized the benefits of such a product to my students, as well as myself. I've been able to accomplish more in the past 9 months than in the previous 12 years.”

“Think about that. Using either an Apple® Macintosh® or MS-DOS™ computer for delivery, any instructor can immediately improve course materials. Simulations. Models. All the things that make learning dynamic, they are now possible in whatever medium you choose.”

“I'm not a programmer, so I do not intend to spend 90% of my time on the courseware environment at the expense of content. *Authorware Professional* is a quantum leap forward — melding together the science of instruction with the art of teaching. The future is finally here — now!”

Yes, I want to learn how Authorware Professional can make a difference for me,

LEARNWARE

colour products and solutions for electronic publishing, presentation graphics and other professional applications. Amongst these are the Rasterops range of 24-bit high end colorboards and displays which provide photographic realism to the Macintosh. See also the new SFX video from Rasterops to suit multimedia requirements. Also on show is the new Howtek Pixelmaster Color Postscript printer, the Mirus 24-bit 35mm transparency maker, the Barneyscan 35mm Colour Image Scanner. We are also showing the PLI Infinity Optical — the latest in sony-based erasable magnetic optical disk drives as well as the PLI Turbofloppy — a 1.4Mb SCSI floppy disk drive to suit all Macs. Look for the Rasterops 264 which brings 24-bit color to the Apple RGB Monitor. Finally, for the first time in Australia, see the MicroTV — TV on Mac!

**Monotype Australia Pty Ltd** *Stand 335*  
**12 Whiting Street, ARTARMON NSW 2064**  
**PH:(02) 439 4388 FAX:(02) 439 2854**  
**Contact: K. McBurnie — General Manager**

With a built in Postscript RIP, Monotype's Prism PS offers the ideal combination of a low cost, high performance imagesetter with total Adobe postscript language compatibility. Any front-end application program that outputs in the postscript language can drive the monotype prism PS. A choice of output resolutions up to 2400 dots per inch makes prism PS ideal for satisfying the widest range of output quality requirements. A comprehensive range of fonts from monotype's extensive typeface library are available in postscript language format, maintaining superb results when output at high resolution.

**NetComm (Australia) Pty Ltd** *Stand 132*  
**Unit A, 25 Paul Street, NORTH RYDE NSW 2113**  
**PH:(02) 888 5533 FAX:(02) 887 2839**

NetComm (Australia) Pty Limited is a Distributor of powerful networking and communication products from Farallon Computing, Solana Electronics and Tri Data Systems USA. New Farallon products include:-

- Timbuktu 3.0 — a major upgrade that incorporates the ability to transfer files on an AppleTalk LAN.
- PhoneNET StarConnector — specifically designed to connect AppleTalk devices in a star configuration. Pre terminated and lower priced than PhoneNET.
- PhoneNet Star Controller EN — an Ethernet version of the popular StarController. 10 Megabyte, 12 port retiming Ethernet repeater. Ethernet speed over twisted pair wiring.
- Macintosh Portable Pack — a set of hardware and software for the Macintosh Portable that provides all the tools necessary to connect the Mac Portable on the road or the office.

Also from Farallon: Timbuktu Remote, ScreenRecorder and MacRecorder.

New from Tri Data:-

- Netway 2000 — the industry's first combined gateway and intelligent bridge/router that concurrently supports LocalTalk, EtherNet and Token Ring environments. Supports 64 simultaneous host sessions.
- Netway 1000 — new 7.0 software.

NetComm manufactures a wide range of modems for high speed data communication including Pocket Rocket 1234 and Macintosh Modem Pack (AutoModem 1234). Both packs include communication software and a modem cable. SmartModem M5 is the new high speed V32 9600 bps modem which is recommended for use with Timbuktu Remote and other remote AppleTalk programs.

**Oracle Systems (Australia) Pty Ltd** *Stand 405*

Oracle Corporation, the world's second largest independent software company, develops and markets relational database management systems (RDBMS), end-user and decision-support tools, and associated business

management and office automation applications. The flagship ORACLE RDBMS has been ported to over 85 hardware platforms. Currently ORACLE for the Macintosh is available optimizing the Hypercard environment, and versions for ACIUS's 4th Dimension, CL/I and SuperCard are soon to be available in Australia.

**Pacific Database Pty Ltd** *Stand 115*  
**179 Park Street, SOUTH MELBOURNE VIC 3205**  
**PH:(03) 690 4033 FAX:(03) 696 1004**

Pacific Database is proud to be the exclusive distributor of the recently announced Omnis 5, a major new database management system for Macintosh and IBM compatible personal computers. Omnis 5 is a hierarchical database program which has been specifically designed to fully utilise the graphical interface, enhanced memory, storage and colour capabilities of both Macintosh and IBM PS/2 hardware. Pacific Database being application developers have the knowledge and expertise to support Omnis users allowing Omnis to be used to its full potential. Support and professionalism is our main credential.

**Performance Sales Pty Ltd** *Stand 220*  
**1st Floor, 132 Willoughby Road, CROWS NEST NSW 2065**  
**PH:(02) 906 4900 FAX:(02) 906 4835**  
**Contact: Chris Franklin — Managing Director**

Performance Sales Pty Limited are the exclusive distributors for Caere's OmniPage OCR/Text Recognition products. The Complete PC's range of Hand Scanners and Full Page Scanners, and Connectix's Virtual RAM (2 — 14 megabytes of disk based RAM for Macintosh). All products are leading edge and work hand in hand with your Macintosh to perform all tasks related to Image Scanning and Text Recognition from scanned images.

**PC Extras Pty Ltd** *Stand 321 and 417*  
**86 George Street, REDFERN NSW 2016**  
**PH:(02) 319 2155 FAX:(02) 698 9926**

**Contact: Debrena Harvey — Administration Manager**

PC Extras is the leading software supplier with branches in Sydney, Brisbane, Melbourne and Auckland. Presentation Graphics will be the highlight of PC Extras' Macworld presentations. More II's word processing and presentations are based on outlining, you get total flexibility to revise, reorder, rethink and refine presentations and projects right up to the last minute. More II gives you more time to plan and more time to practice which results in better presentations.

PC Extras will also be demonstrating Lap-link for the Mac. Everything you need to connect a Mac and an IBM-PC is complete in this package.

Lap-Link Mac's file translators help you transfer text files between PC and Macintosh word processors — you can preserve the special formatting from your original document. Bold, Italics, Underlines, Indents will remain unchanged through translation.

**PICA Pty Ltd** *Stand 321/417*  
**PO Box 256, ESSENDON VIC 3040**  
**PH:(03) 370 3566 FAX:(03) 375 2830**

**Contact: Tony Smith — Director**

PICA Pty Ltd is the Australian distributor of technically innovative Macintosh software and peripherals focused on Graphic Arts, Technical Productivity and the Corporate Office. These including: E-Machines' extensive range of large screens, Canvas (draw-paint), Smart Art (PostScript effects), Swivel 3D 1.1, Mathematica 1.2, Extend (simulation), StatView, MetaDesign (network data structures), uShare (Unix-based server), MacFlow, MacSchedule, Coach Professional 3.1 (spelling dictionary with big thesaurus) and RagTime 3 (integrated office productivity).

At Expo, PICA is introducing Optical Scaling font technology, ModelShop, SuperAnova, Voice Navigator, Personal Network Server and MarkUp (workgroup document editor); and expects to preview Aperture (CAD-quality graphically indexed database), OCR Express (with hardware acceleration) and MarcoPolo (workgroup indexed archiving

program). PICA is also launching the packaging of its hard-won hardware expertise as PicaCare service agreements, and is using Expo to meet Value Added Resellers to further develop the large market potential of PICA's specialised products.

MacBARCODA Software

Until now the product of bar codes, from the photographic master to the final copy, has traditionally been a costly and time consuming business. Now MacBARCODA is available. With MacBARCODA it is possible to produce cheap bar codes to international specifications conveniently and cheaply within your own environment. The software will work with any package that imports PostScript such as Quark Xpress and Freehand. MacBARCODA is a desk accessory and this leads to a quick and easy method means of incorporating barcodes into your documents.

For more details, contact the sole Australia distributor:- Prestige Type Conversion (02) 922 2492.

**PRESTIGE TYPE CONVERSION PTY LTD**

Prestige Type Conversion Pty Ltd is one of Sydney's largest imagesetter service bureaus. The philosophy of the company is to constantly strive for the highest standards of excellence and service to the client.

The three imagesetters are the very latest in design and the bromides and film separations from the Compugraphic 9400s are providing an enviable standard of quality. To ensure that this standard is maintained only the Best Agfa materials are used. Prestige has built up a large client base because of its meeting client needs. If you want only the very best for your artwork call us on (02) 922 4292.

**Prime Computer** *Stand 330*

2nd Floor, 15 Blue Street, NORTH SYDNEY NSW 2060

Prime Personal CAD/CAM Systems Business Unit markets and sells Personal Designer, Personal Machinist and Versacad products through a National network of authorised resellers.

Personal Designer and Personal Machinist are full 3D, Design, Drafting and Machining packages running on 286, 386, 386i and SPARC platforms. Versacad is a full 2D and 3D Design and Drafting tool running on 286, 386, Unix and Macintosh platforms. All products comply with all the Australian Industry Standard protocols.

**QMS** *Stand 547*

One Magnum Pass, Mobile, ALABAMA 36618 USA

PH:(205) 633 430 FAX:(205) 633 0020

Contact: Birgit W. Patty — International Marketing Analyst

QMS Inc, an international company, provides printing solutions in impact and non-impact printing markets. The company designs, manufactures, and markets products that enhance the intelligence of computer printers by expanding their printing capabilities. QMS's products are intelligent printing processors for non-impact print systems marketed by QMS and for integration into impact and non-impact printers marketed by others.

In the non-impact segment, QMS offers the broadest selection of intelligent laser print systems. For impact printers, QMS's unique processor technology is an industry standard. Desktop publishing, industrial graphics, scientific and engineering graphics, word processing, and document composition are applications for QMS products.

**Relax Technology Inc** *Stand 548/550*

3101 Whipple Road, Union City, CALIFORNIA 94587 USA

Relax proudly introduces its wide range of Macintosh peripherals to the Australian marketplace. Featured high performance products include the Erasable Optical Plus and Mobile 42 Plus removable mass storage systems. The View II Series of high resolution color graphics and monograph video boards and monitor packages will be demonstrated. Relax's comprehensive line of fixed hard disks include the Hard Plus Series, Mac Mater Series, Sierra Transportable Series, the 4.2 Gigabyte Expansion Tower and Internal drives ranging from 20 to 600 megabytes. The Tape Plus Series of 60 meg, 150 meg and 2.2 Gigabyte tape backup systems round out the extremely complete Relax product line.

**Seligson & Clare Australia** *Stand 545*

52 Queen Street, ALEXANDRIA NSW 2015

PH:(02) 699 6521 FAX:(02) 698 4696

Contact: Chris Townsley — Sales — Graphic Systems

Seligson & Clare Australia with branches in all states are suppliers of AGFA Compugraphic typesetting and publishing systems, including laser printers, scanners, and high resolution imagesetters.

**Siemens Ltd** *Stand 440*

383 Pacific Highway, ARTARMON NSW 2064

PH:(02) 436 8669 FAX:(02) 436 8733

Contact: Mona Lesha — Northern Region Dealer Representative

For Macintosh users, Siemens can provide high quality printers and scanners.

The HighScan 400 scanner is an 800 dpi machine with 256 grey scales. The machine provides simple use with a PC and a mouse and can be integrated into desktop publishing systems. Scanned and edited graphic data can be transferred to layout programs such as Pagemaker. A practically unlimited number of frames can be displayed simultaneously. The use of frames frees the PC main memory and reduces transmission times.

The Highprint PT 10 is a second generation laser printer which prints eight pages per minute with a quality of 300 x 300 dpi. This is 100% Laserjet compatible.

The Highprint 6001 and 6002 are ink-jet technology printers; initially marketed as PT 88/5 and PT 89/5, these printers have been well accepted in the marketplace. Siemens highly successful lightweight Supra headsets from Plantronics, enabling hands-free operation with excellent audio quality, will also be on display.

**Sigma Data Corporation** *Stand*

The Sigma Data Corporation is one of the largest Australian owned computer companies and its commitment to providing "total solutions" has been a major factor in its success in the Australasian market. To Sigma, "total solutions" extend far beyond the provision of computers and software, to marketing and supporting a broad range of computer peripherals and consumables.

One of Sigma's flagship products in the peripherals arena is the Qume Crystal Print Publisher which recently took out the "MacUser" magazine Award for "the best output device in 1989". The others in the Qume family are the CrystalPrint Series II and the CrystalPrint WP.

Sigma's QVT terminal product line includes ASCII, ANSI and PC terminals with multiple page memory support and an extensive selection of terminal emulations.

Sigma Data has an enviable reputation for high level service and support

## **Letraset Software. Graphic Design First.**

Have you ever asked yourself what it takes to develop software that lets your creativity run wild and keep pace with your imagination? Software that gives you the power and flexibility you need to experiment, to turn a good idea into a great one?

Maybe it's time you did. Particularly if you're in the market for software that can help you create incredible layouts. Develop type solutions that you thought you could only get by hand. Create custom halftones and effects without ever calling the lab.

What it takes is more than a company that specialises in just software. It takes a company that understands graphic design and software. A company with 30 years' experience in graphics design, with the software expertise to pull together tools that understand the way you work. Software that puts graphic design first.

Come see Letraset for Graphic Design Software from the graphic design specialists.

Call Letraset Australia (02) 975 1033 for information.

to its customers, and constantly extends the same benefits to many other organisations. The company continually integrates Sigma — supplied and serviced equipment with a variety of other computer products, providing unique configurations for individual computing requirements.

### **SKI Peripherals**

*Stand 248/246*

**30 John Street, LIDCOMBE NSW 2141**

**PH:(02) 649 1222 FAX:(02) 649 2022**

**Contact: Ian McKinnon — Sales Manager**

SKI PERIPHERALS are the Authorised Australian Distributors for the Rodime and Maxtor (Storage Dimensions) range of Hard Disk Drives for the Macintosh range of computers. As one of Australia's leading hard disk drive distributors we offer a range of internal and external drives ranging from 20Mb through to 650Mb. We also have the expertise to configure systems in excess of 2 Gigabytes if required.

In addition to these leading edge Disk Drive Solutions, we also offer a range of other products including 800Mb W.O.R.M. Drives, (Write Once Read Many), Simms, plus many more. And as if this were not enough, we are also the Australian distributors for the Epson Colour Scanner for Macintosh. This Scanner will be on show for the first time in Australia.

### **Smart Business Technology**

*Stand 237*

**235 Kelvin Grove Road, KELVIN GROVE QLD 4059**

**PH:(07) 856 4861 FAX:(07) 856 4790**

**Contact: John Gygar — General Manager**

SMART BUSINESS TECHNOLOGY is the exclusive Australian distributor of the SBT Database Accounting Library.

SBT is a leading supplier of single and multi-user accounting software in the US, with over 120,000 modules of their software installed worldwide. The SBT Database Accounting Library runs in a wide variety of operating environments, and is available in Source Code versions to enable easy customisation of the systems to suit particular needs. Because the system has a modular design, you only have to buy the modules you need, and upgrade when you need to.

This software is the first to make full use of the Mac user-interface giving the familiar graphics look and feel to the programs.

### **Spinning Heads**

*Stand 317 and 319*

**PH:(03) 696 5058**

**Contact: Richard De Vere**

Spinning Heads is a distributor of fine Macintosh products. On the stand we will be showing a number of new Macintosh utilities. We will be demonstrating the latest version of Virex 2.1 the premium anti-virus program that not only detects but repairs virus infected files. Macworld Expo will also herald the public launch of CanOpener! an excellent file recovery utility. A new range of products from Multicomp including LabelOnce Erasable disk labels and keyboard flipbooks, as well as a new Macintosh security product will be shown. Spinning Heads is a division of OnTheBall Computer Resource Centres and has its head office located in Melbourne. For further information about the products please call us on (03) 696 5058.

### **Status Graph**

*Stand 325*

**15 Cornwallis Street, REDFERN NSW 2016**

**PH:(02) 699 7073 FAX:(02) 699 5917**

**Contact: John McKenzie — Managing Director**

Think of StatusGraph as your personal high-tech specialty shop full of quality products exclusively for the Macintosh with department store selection and the lowest prices anywhere. Pick up the free copy of the Status Report from our stand and check the rockbottom prices.

Each month the Status Report is included as an insert with the Australian Macworld. But for the Macworld Expo we have a special issue for you containing over 2500 product listings. You'll find it not only provides you with an expert guide to the Mac marketplace but will also help you make informed purchasing decisions and get the most for your money.

We'll have on show, some of the latest Mac hardware and peripherals

recently released at the MacWorld Expo in Boston together with many quality used Macintoshes and accessories at special prices.

At Macworld Expo we invite you to join us in the excitement of the Macintosh adventure and extend our thanks to you all for your overwhelming and enthusiastic support during the past five years.

### **Sylex Ergonomics**

*Stand 130*

**180 Adderley Street, AUBURN NSW**

**PH:(02) 647 2888 FAX:(02) 748 0701**

**Contact: Peter Tankard — Managing Director**

In mid 1989 Sylex Ergonomics produced for the first time in Australia a comprehensive catalogue of accessories to suit the Macintosh range of computers.

With products from America, Asia, Europe and Australia Sylex offers only products specifically engineered to assist the most important Macintosh interface — between Mac and you.

The range includes:-

- |                         |                    |
|-------------------------|--------------------|
| * Tilt/Swivels          | * Keyboard Storage |
| * Security Systems      | * A/B Boxes        |
| * Cabling Extensions    | * Maintenance Kits |
| * Furniture             | * Monitor Arms     |
| * Track Balls & Keypads | * Mouse Pads       |

and many more items designed to improve your Macintosh productivity and comfort. Offices around Australia provide local stock, back-up and service to the dealer network.

### **Symbiotic Computer Systems**

*Stand 446*

**PO Box 412, CAMBERWELL VIC 3124**

**PH:(03) 836 4482 FAX:(03) 830 1823**

**Contact: Dr Helmut Imberger — Managing Director**

Symbiotic has a number of new products for sale in the Jasmine range of storage devices including external, internal and backpack hard disks, streaming tape and digital tape backup units, erasable optical disks and removable mass storage modules, as well as the Jasmine DirectPrint postscript printer with 3MB RAM.

Symbiotic is also shipping the Jasmine DirectServe fileserver which comes with Appleshare networking software in ROM at no extra cost and thus releases existing Macintosh Fileservers to again function as useful workstations.

Symbiotic has a number of other new products including AllScript and AllPage multilingual word processing and page layout software as well as a FAXModem from Computer Friends to send and receive group 3 facsimile and data at 2400 baud all in the one box. All products are available at special prices during Macworld.

### **TCG**

*Stand 360*

**30 Balfour Street CHIPPENDALE NSW 2008**

**PH: (02) 699 8300 TELEX: AA 20024 FAX: (02) 698 1339**

**Contact: Jenny Kelly — Marketing & Communications Manager**

TCG specialises in the distribution and service of computer graphic peripherals. Products being exhibited at Macworld include:

- RDk Large format thermal plotters
- JDL colour printer/plotter
- SEIKO QD 5504 colour thermal printer
- GTCO MAC ADB Digitiser
- LIQUID LIGHT Digitiser film recorder
- TCG has been involved with computer graphics since 1971

### **Techflow Pty Ltd**

*Stand 435 and 437*

**34 Wolgan Road, LIDSDALE NSW 2790**

**PH:(063) 55 1988 FAX:(063) 55 1990**

Techflow distributes Symantec high performance software S.U.M., S.A.M., Think C (the first object C for the Macintosh) and THINK Pascal. All of these Symantec products have won industry and user acclaim. If security of data is a concern, especially in the corporate environment, then FileGuard offers a complete and integrated Macintosh security

# WHEN ONLY THE BEST WILL DO.

## RODIME Hard Disk

- 45, 70, 100 and 215MB Capacities
- Average Seek Time of 18ms
- Latest 3.5" Technology
- Embedded SCSI Interface
- Automatic Head Park and Lock
- Dual SCSI Ports Allow Daisy-Chaining of up to Seven SCSI Peripherals
- 2 Auxillary Surge Protected A/C Outlets
- 100% Apple® Compatible
- Fits Neatly Under the Mac Plus, SE and SE/30
- Three LEDs Allow Full Diagnostic Capabilities
- Full Format and Installation Software Included
- Free Fastback™ backup Software - \$99.00 Value
- Ultra-Quiet Operation for Low Noise Environment
- One Year Warranty

# RasterOps 24-bit color for Mac II & SE/30

How we broke technology barriers,  
to deliver the worlds most advanced 24-bit  
color board for just

# \$1995

The new RasterOps ColorBoard 264  
rewrites the price book for 24-bit color.

Combine it with Apple's® 13" color  
monitor, or any Mac-compatible 640 x  
480 monitor. You get advanced, third-  
generation 24-bit color, allowing you to  
display over 300,000 colors simultane-  
ously.

If you have an Apple 13" color  
monitor, then you are ready for 24-bit  
color.

If you are going to buy a 13" color  
monitor, this is the only board you  
should consider.

Why? For the quality design and  
features described in this ad.

And for real, 24-bit color.

24-bit systems let you work with  
over 16 million colors simultaneously.  
This is the most accurate way to  
produce true-to-life colors. With 24-bit  
color, you can display and manipulate  
photographic quality images, to create  
stunning presentations and documents.

24-bit color unlocks the potential  
of desktop publishing, presentations,  
and video.

Apple's 32-bit QuickDraw™ is the  
standard.

Now, we have made it affordable.

## RasterOps 264 Chip Set

**Barrier:** Providing professional color capability to  
Macintosh® users at a price everyone can afford.

**Breakthrough:** Resulting from many man-years of  
engineering development time, RasterOps has  
reduced the large number of components needed  
(sometimes as many as thirty) to produce 24-bit color  
video display cards, to a set of two proprietary  
custom chips utilizing the most advanced VLSI chip  
design and manufacturing technology. Selecting the  
most advanced high density CMOS chips through-  
out, this board has the lowest chip count of any 24-bit  
card in the industry. The fewer the chips, the less the  
heat, and the more reliable the product.

## SetGamma and DirectSetEntries

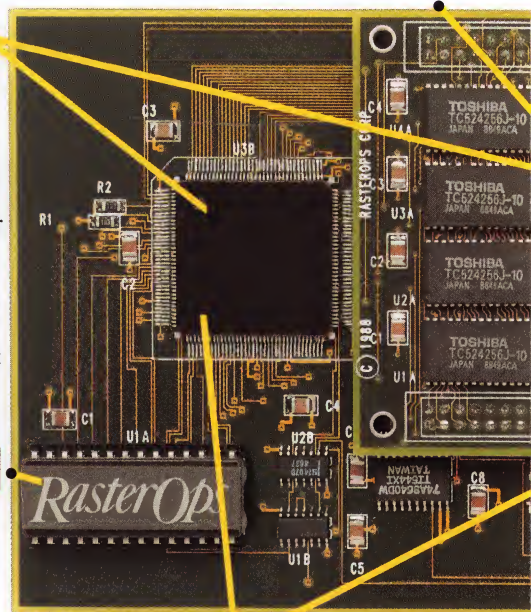

**Barrier:** To see the effects of color corrections in  
real time, as you make adjustments to gamma,  
brightness and contrast.

**Breakthrough:** Your ColorBoard 264 directly  
supports Apple's DirectSetEntries and SetGamma  
QuickDraw instructions in hardware. Instantly see  
the effect of changes to your color image. You can  
watch the color tones change as you move the  
mouse. Without this dynamic support, you have to  
guess at the color correction, enter the new value,  
and wait for the new screen to repaint. No waiting  
with the 264.

## 300 nanosecond Bus Cycle

**Barrier:** 24-bit color takes a lot of memory.  
One screen image can take up to 900,000 bytes.  
Slow memory slows your screen draw time.

**Breakthrough:** These 1 Megabit Video  
RAMs provide more memory in less space, and  
operate at 100 nanosecond speeds, providing  
the fastest possible read-write cycles available  
on the Macintosh, at 300 nanoseconds.

## Color Modes

**Barrier:** The color mode of the display (2, 4, 16,  
256, or millions) affects the speed of your work.  
When you are word processing you want  
documents to scroll fast.

**Breakthrough:** With RasterOps' custom Very  
Large Scale Integration CMOS chips, all color  
modes are available including 2, 4, 16, 256, or  
millions of colors. You decide what color level  
you need and when you need it.

"Millions of Colors For Millions of People!"™

Both the Mac II family and SE/30 version of the RasterOps ColorBoard 264 are fully com-  
patible with Apple's 32-bit Color QuickDraw. RasterOps is an Apple licensed supplier of the  
Apple 6.0.3 System Software, including 32-bit color QuickDraw. A copy is shipped  
with each ColorBoard 264.

ColorBoard 264/II For Any  
Mac II: \$1995

ColorBoard 264/SE30: \$2395

All registered and unregistered trademarks are the sole property of  
their respective companies.

# Now showing on the Mitsui Computer stand 310

## Dual Oscillators

**Barrier:** With the onrush of multimedia and video applications, our customers don't want to invest in a board that locks them out of video.

**Breakthrough:** Two separate oscillators. The left to support Apple's 13" color monitor at a resolution of 640 by 480, and the right oscillator to output 8-bit gray scale video directly to VCRs or TV monitors. It will also output RGB NTSC video for external encoding in 24-bit True Color. When you need video, (and it's coming fast), you're ready.

## DAC 473

**Barrier:** Convert a 24-bit image from digital values in memory to analog signals of Red, Green, and Blue, using the least amount of power and board space.

**Breakthrough:** We are the first to use this advanced, DAC (Digital to Analog Converter) 473. The single, low power chip does a better, faster job, and replaces 3 chips. If you want the best, ask for the DAC 473.

## SMOBC Fabrication

**Barrier:** The accepted, easy way to manufacture a board is wave soldering. But this doesn't allow efficient use of robots, and doesn't create a "Clean" board.

**Breakthrough:** We use an advanced, Solder Mask Over Bare Copper board fabrication technology and surface mounting of components through efficient, dependable robotics. Note the clean, simple appearance of this board. When you turn the board over, you will see a smooth golden surface, the trademark of a SMOBC board. It costs more and requires a greater design effort, but the benefit to you is a more reliable board.

## Auto Sensoring

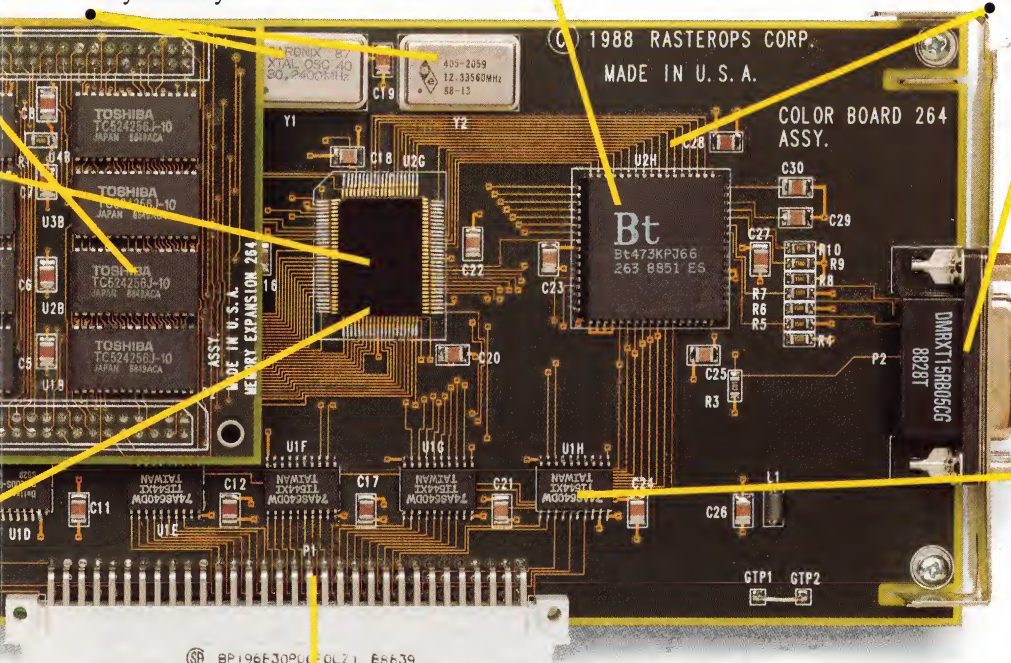

**Barrier:** Allow user to change monitors and frequency without setting a switch, changing an oscillator, or making a selection from the control panel.

**Breakthrough:** Circuitry that automatically senses which monitor you are using and switches automatically from 66.7 Hz to 30 Hz. You just plug in your Apple-compatible monitors, the board will take care of the necessary adjustments.

## Bus Buffering

**Barrier:** The NuBus transmits power spikes and bus noise. These can destroy data as well as circuitry on the display card. Spikes can also cause pixels to trip, causing spots on the screen.

**Breakthrough:** We designed sophisticated bus buffering circuitry to isolate the hostile NuBus environment from critical components on the board, protecting your video investment, and your data.

## Power Draw

**Barrier:** Power and heat. Your board draws its power through the NuBus. Apple specifies a maximum of 2.1 Amps per slot. Many boards require over 4.0 Amps. Amps mean heat, which is deleterious to your Macintosh, and a drain on the power supply.

**Breakthrough:** Through the extensive use of CMOS circuits, VLSI parts that replace multiple parts, low chip count, and 5 mil copper traces, the RasterOps ColorBoard 264 needs less than 1.0 Amp. Your system runs cooler. You can use other slots without fear of overloading your power supply.

## RasterOps Literature Package

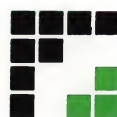

For your nearest dealer and literature on the most advanced Macintosh graphics products call:

Your one stop shop for Macintosh Computer Hardware.

Team up with Australia's largest PC Rental Company and utilize the Macintosh — Rental Advantage.

Rental — Is Economical

Conserves your capital

Lets you try before you buy

Payments are fully tax deductible

For unforeseen needs

Overcomes obsolescence

Preserves your credit line

Stretches your Operating Budget

Enjoy peace of mind knowing that our extensive service and maintenance capabilities are Australia wide.

Rental — Short term, Long term, Rental Purchase, Leasing. See us at Stand 456 for a free catalog.

### **The Consortium Consultants**

*Stand*

**56 Clark Road NORTH SYDNEY 2060**

**PH: (02) 954 9890 FAX: (02) 954 9865**

The Consortium Consultants are a group of computer professionals who have pooled their expertise to give valuable advice, solve problems and give clients this complete 12 step service.

The 12 Steps to successful Macintosh system purchases are:

1. Discussion, should we progress.
2. Investigation & Inspection of each other.
3. Planning for now and the future.
4. Quotation and budgeting, optimum economics.
5. Financial, Projecting returns, outgoings and getting the right finance.
6. Integration and transition from one mode of operation into another.
7. Installation, preplanned and steamlined to fit your planning and business
8. Networking, the hassle free communications leg.
9. Training, guaranteed performance-level training.
10. Service, warranties, replacement equipment and response times, critical to your needs.
11. Maintenance, virus check, system and software upgrades, regular tape back up visits and computer clean.
12. Recruitment, Temporary staff, with emphasis on locum designers and finished artists including DTP people.

### **Tri-Data Communication**

*Stand 105*

**Unit E-5 Skyline Place FRENCHS FOREST NSW 2086**

**PH: (02) 957 2799 FAX: 975 2966**

**Contact: Peter Suans — Engineer Manager**

Another Pacer Product — "Pacer Share for ULTRIX". The only AppleShare Product that caters for the entire VAX ran of Hardware. Nodem, a low cost SCSI Ethernet device for the Macintosh/ laptop Portable.

Mirmar, MacLan Connect allows bridging to NOVELL, 3com, UB and MS-Net Networks.

### **The Seahorse Group**

*Stand 140*

**22/28 Vore Street, SILVERWATER NSW**

**PH:(02) 283 311 FAX:(02) 283 787**

**Contact: Helen Colquhoun — Marketing Manager**

One of Apple's longest established resellers, The Seahorse Group is a rapidly growing organisation with four strategically located Centres for Apple Computers serving metropolitan Sydney. Each Seahorse centre has excellent training and seminar facilities.

The Seahorse Group specialise in Business Solutions and Education. There is particular emphasis and expertise within the Group on DeskTop Publishing and Typesetting, in specific vertical markets, Legal, Optical and Film Industry for example, and in connectivity solutions.

### **Tektronix Australia Pty Ltd**

*Stand 210*

**80 Waterloo Road, NORTH RYDE NSW 2113**

**PH:(02) 888 7066 FAX:(02) 888 0125**

**Contact: Krysia Taggart — Marketing Co-Ordinator**

Tektronix will be exhibiting today's leading colour printing solutions for the Apple Macintosh — Phaser CPS PrintStation and ColorQuick Ink-jet.

The Phaser CPS is a colour PostScript-compatible printing system with AppleTalk network interface, print spooling software, 40Mb hard disk, printer controller with 8Mb of memory expandable to 11Mb, and a thermal wax print engine.

The ColorQuick's features include a chooser-level QuickDraw driver, 216 dots-per-inch resolution for high quality bit-mapped graphics and a high-speed SCSI port for rapid data transfer, making the printer well-integrated with the Macintosh.

The Tek 4693DX colour image printer shown at last years MACWORLD will be on display.

# WordPerfect®

## P A C I F I C

WordPerfect Pacific will show the latest version of its word processing software for the Apple Macintosh, and hopes to give a pre-release demonstration of its integrated office software package at Macworld Expo, to be held at the Sydney Exhibition Centre, Darling Harbour, from November 2 to 4.

WordPerfect 1.0.3 offers file compatibility with the DOS version of WordPerfect 5.0, enhanced text export filters and a Microsoft Word fast save file import filter. WordPerfect Office for the Macintosh includes Electronic Mail, Shell, Phone Message, Calendar, Notebook, Calculator and File Manager programs. It is fully compatible with the PC version of Office, 2.1.

WordPerfect Pacific will also demonstrate its connectivity options for word processing between the Macintosh, IBM PC, and DEC VAX machines.

Several customer support staff will be on hand to answer questions about WordPerfect products, and visitors to the stand, number 110, will be able to find out how to enter the joint WordPerfect/MacWorld/Qantas competition with its first prize of a trip to the US MacWorld Expo to be held in San Francisco in April 1990.

### **Xyber Pty Ltd**

*Stand 320*

**575 Pacific Highway, ST. LEONARDS NSW 2065**

**PH:(02) 438 4884 FAX:(02) 906 3620**

**Contact: Russ Little**

Xyber is an all-Australian Macintosh peripherals company. Xyber products are designed in Australia to suit tough Australian conditions. To prove it, Xyber warrants all its products for 24 months. Xyber manufactures the Xpress range of hard disk drives, the Xactor high resolution monitors, Xcalibur memory products, as well as SCSI and Midi interfaces. Xyber is proud to have been awarded the "best product support" and "best alternative mass storage" Macworld Class Awards of 1988.

# CONFERENCE SCHEDULE

## WORKSHOP / SEMINAR PROGRAMME

### STREAM ONE

#### Auditorium Meeting Room 3

|                            |                                       |
|----------------------------|---------------------------------------|
| 10.30 am – 12.00 Each Day  | GRAPHIC ARTISTS AND THE MAC ADVANTAGE |
| 1.00 pm – 2.30 pm Each Day | MAC AND CAD: NEW STANDARDS            |
| 3.00 pm – 4.30 pm Each Day | MAC FORMS DESIGN – A WORKSHOP         |

### STREAM TWO

#### Auditorium Meeting Room 2

|                              |   |
|------------------------------|---|
| 10.30 am – 12.30 pm Each Day | MAC MULTI-MEDIA: AN OVERVIEW  |
| 1.00 pm – 2.30 pm Each Day   | INFORMATION MANAGEMENT & MULTI-MEDIA<br>(Includes User Case Study)  |
| 3.00 pm – 4.30 pm            | ENHANCING OFFICE PRODUCTIVITY WITH THE MAC <ul style="list-style-type: none"><li>• WORD PROCESSING (Thursday, 2 November)</li><li>• SPREADSHEETS (Friday, 3 November)</li><li>• DATABASE MANAGEMENT – Getting The Most Out Of It<br/>(Saturday, 4 November)</li></ul> |

### STREAM THREE

#### Auditorium Meeting Room 6

|                              |   |
|------------------------------|---|
| 10.30 am – 12.00 pm Each Day | MAC IN THE MIXED COMPUTING ENVIRONMENT          |
| 1.00 pm – 2.30 pm Each Day   | TECHNICAL PRODUCTIVITY AND<br>THE MAC ADVANTAGE |
| 3.00 pm – 4.30 pm Each Day   | MAC AND CBT (COMPUTER BASED TRAINING)           |

### STREAM FOUR

#### Auditorium Meeting Room 5

|                                      |                                       |
|--------------------------------------|---------------------------------------|
| 1.30 pm – 3.00 pm<br>Thursday, 2 Nov | PROFESSIONAL DESIGN TOOLS: A WORKSHOP |
| 1.30 pm – 3.00 pm<br>Friday, 3 Nov   | PRESENTATIONS: A WORKSHOP             |

**Registration for all sessions Foyer Hall 2**

# Introducing

**Not an illusion! Now the PhoneNET System lets you run LocalTalk and Ethernet on ordinary twisted-pair telephone wire.**

Your desktop publishing department is growing. So is your AppleTalk network. Only now you're about to produce the company's biggest ever annual report. You're right on schedule when suddenly, it feels like someone poured molasses in the network.

You've got a LocalTalk logjam. Sound familiar?

You call Harrington, your network whiz. On his Macintosh, Harrington brings up Farallon's TrafficWatch software. Using TrafficWatch, he can analyze traffic patterns and check the placement of servers and routers. Everything looks fine. LocalTalk just can't handle the traffic.

Ethernet is the answer. But does everyone have to have it? And can you run Ethernet and LocalTalk together? Harrington is a smart guy. He draws a simple picture on the chalkboard. It looks easy. Looks fast. Looks affordable. How do you do it?

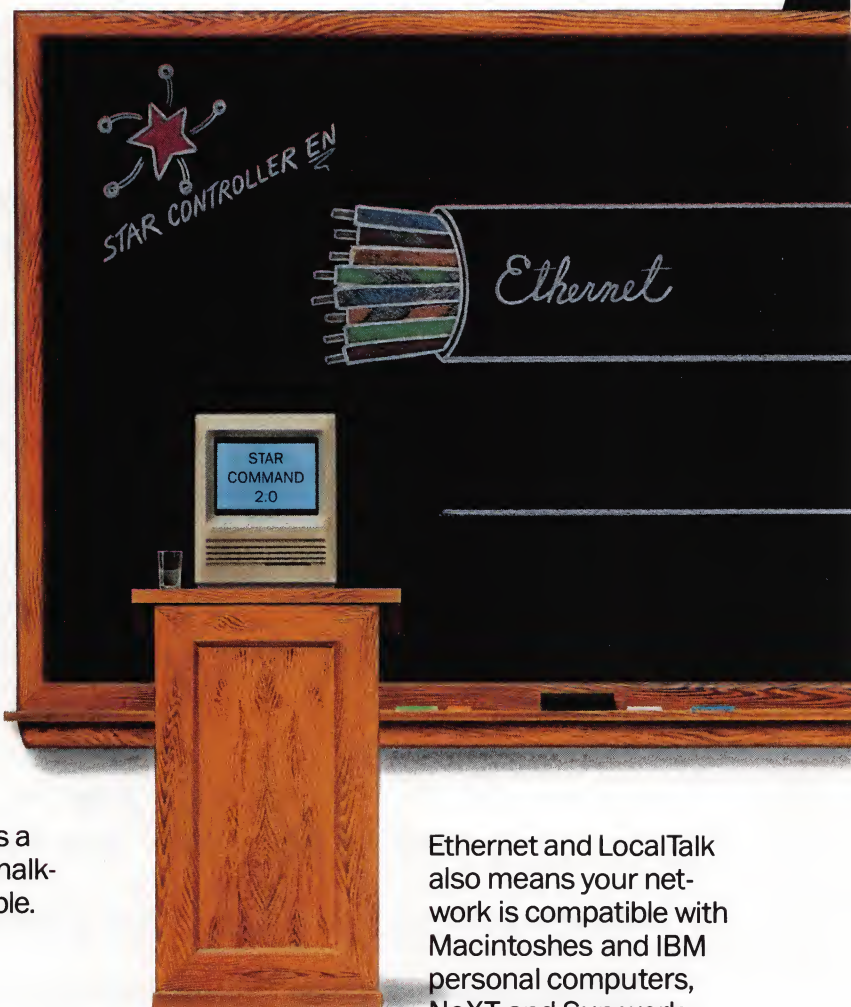

## **Combine price and performance on one network.**

The PhoneNET System just got a lot faster. Farallon's PhoneNET StarController EN and PhoneNET StarConnector EN let you run Ethernet at 10 mbps over ordinary twisted-pair telephone wire.

What's even better, you can combine our Ethernet components with our LocalTalk PhoneNET StarControllers and StarConnectors to create hybrid networks that are reliable, cost-effective and easy-to-manage.

Imagine, now you can run high-performance Ethernet for people who frequently access a central database, transfer large graphics files or operate network-intensive applications, such as CAD or desktop publishing. And run low-cost LocalTalk for everyone else. All on the same wiring system.

Running two well-defined standards like

Ethernet and LocalTalk also means your network is compatible with Macintoshes and IBM personal computers, NeXT and Sun workstations, laser printers and DEC VAXes. And everything will communicate using popular network software, such as AppleShare, 3Com 3+, TOPS and Novell Network.

## **Your future is in the stars.**

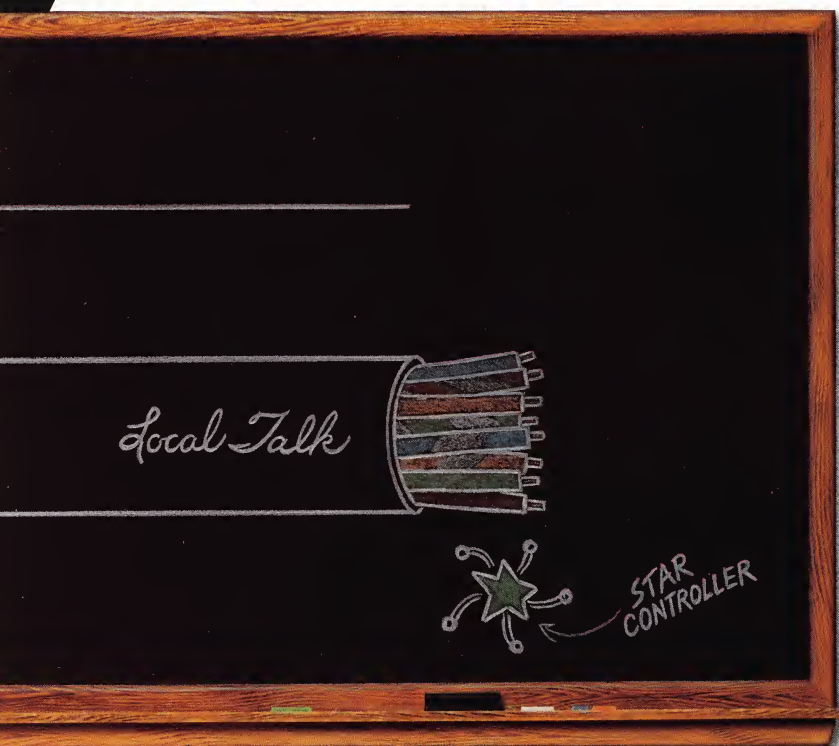

If you think hybrid networks make sense, here's an even more sensible idea: active star networks over twisted-pair telephone wire.

Stars are the standard for telephone networks, with cables running from the phone closet out to each desk. The PhoneNET System uses this same cabling for your computer network.

Which means if you already have a LocalTalk network using the PhoneNET System, then creating a hybrid LocalTalk/Ethernet network should be easy.

# g eithernet.

## Manage to stay in control with StarCommand 2.0.

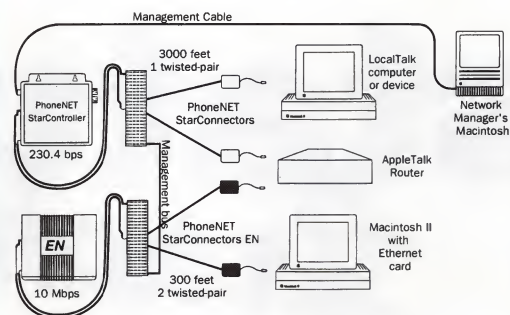

Of course, a larger, faster network requires more management power. Our StarControllers have been designed to make it easier and faster to isolate and fix problems without disrupting the network.

For example, our StarControllers automatically turn off jamming ports on LocalTalk and Ethernet, thus protecting the rest of the network, and turn them back on when the jam clears.

Plus, each StarController comes with StarCommand 2.0 software, which continuously monitors the network and alerts the network manager to any problems. Running under MultiFinder and password-protected, StarCommand will isolate and diagnose problems without interfering with the rest of the network. And since it works over a dedicated management bus, you can troubleshoot even if the network is down.

## You say Ethernet, we say Eithernet.

Look at it this way. Even if you're doing more things on AppleTalk than ever before, chances are

### StarController EN:

- Standards: IEEE/CCITT 802.3 Ethernet
- Supports 12 branches of 328 feet each
- AUI interface for connection to coax based Ethernet LANS
- Diagnostic LEDs for power, ROM, RAM, and to indicate packet transmission to each port
- Interconnect multiple StarControllers EN to support up to 1,024 users

only some of your people are facing critical mass. Everyone else is perfectly happy and productive. So rather than installing Ethernet everywhere, maybe you should consider running both LocalTalk and Ethernet. At the same time. Over the same network cabling. With the PhoneNET System.

For more information or technical support, call (02)888 5533 or Fax (02)805 0254

- SD Series Mac-Stack

• **SDU Series Mac-Stack** [External drive with its own footprint as the SE. 60g head parking and lock on power down. Pre-formatted, complete with SCSI cable, utilities disk and built in terminator.]  
20 MB 5.25" External (+SE,II) (32ms) DDC \$995  
30 MB 5.25" External (+SE,II) (32ms) DDC \$1150  
45 MB 5.25" External (+SE,II) (32ms) DDC \$1375  
60 MB 5.25" External (+SE,II) (40ms) DDC \$1560  
81 MB 5.25" External (+SE,II) (48ms) DDC \$1975  
100 MB 5.25" External (+SE,II) (55ms) DDC \$2465

• **PUSE SE Series** [The highest-quality internal system on the market featuring auto head parking and lock on power down. Complete with SCSI cable, utilities disk and built in terminator. Drives can be configured in the Mac II as an additional internal drive. The installation of the Mac SE can be in addition to an existing internal drive or installed to retain both floppies.]  
20 MB 3.5" Internal (SE,II) (22ms) DDC \$785  
30 MB 3.5" Internal (SE,II) (28ms) DDC \$945  
45 MB 3.5" Internal (SE,II) (32ms) DDC \$1185  
100 MB 3.5" Internal (SE,II) (55ms) DDC \$2085

• **Compact Series Portable** [100g head parking. Universal power supply. Auto head parking and lock on power down. Pre-formatted and complete with SCSI cable, utilities disk and built in terminator.]  
30 MB 3.5" External (+SE,II) (32ms) DDC \$1280  
45 MB 3.5" External (+SE,II) (40ms) DDC \$1740  
100 MB 3.5" External (+SE,II) (55ms) DDC \$3395

• **PRO II Series** [5.25" internal drive for the Mac II only; LocalTalk, EtherTalk, AppleShare and auto head parking. Auto head parking and lock on power down. Pre-formatted and comes complete with SCSI cable, utilities disk and built in terminator.]  
20 MB 5.25" Internal (II) (32ms) DDC \$825  
45 MB 5.25" Internal (II) (40ms) DDC \$1365  
60 MB 5.25" Internal (II) (40ms) DDC \$1440  
81 MB 5.25" Internal (II) (42ms) DDC \$1940  
102 MB 5.25" Internal (II) (42ms) DDC \$2230  
140 MB 5.25" Internal (II) (2ms) DDC \$2575  
150 MB 5.25" Internal (II) (15.5ms) DDC \$4010  
300 MB 5.25" Internal (II) (16.5ms) DDC \$5550

• **SFS Power Series** [Expandable SCSI hard disk subsystem. Supports up to four high performance SCSI devices giving a maximum capacity of 1.2 Gb. Desktop, pedestal or standard 19" RFTM cabinet mount. Developed to Apple's specifications, HFS, LocalTalk, EtherTalk and A/UX compatible. Base model includes single hard disk, power supply, fan and internal SCSI cables to support additional 3 devices.]  
150 MB External (+SE,II) (16.5ms) DDC \$8150

### Memory Upgrades

## Memory Upgrades (continued)

**MacSnap 548S / Dove** [Designed for the 512k Macintosh with the old 64k ROMs. Expands memory from 512k to 2048k. Includes ROM adapter card plus SCSI interface with external port] SYS lbs \$1395

**MacSnap SCSI Adapter / Dove** [Included in S models. Requires 128k ROMs. Includes rear port/ replacement battery door] lbs \$375

**MacSnap SCS I- Inter Port / Dove** lbs \$213

**MacSnap Toolkit / Dove** [Not included with upgrades and must be ordered separately. Includes hex driver, case spreader and static strap] SYS lbs \$57

**Memory Guard UPS300VA/** Symbiotic SYC \$1271  
**MenuFonts2 / Beyond, Inc.** lbs. \$73  
**Merge Write** KEW \$78  
**MetaDesign Mac** PIC \$428  
**MetaDesign PC** PIC \$428

**MCM Classroom Pack [2 full copies plus 10 disks] / Micro** LAP \$3583

**MCM Station v 2.5 I / Micro** LAP \$1145

**MCM Station v 2.5 II / Micro** LAP \$1689

**MCM CAD [Prices vary according to installation]** LAP from \$10,769

**Metcom Modula 2/Metropolis** TEF \$356

**Metcom Modula 2 - Student Edition /Metropolis** TEF \$113

**Micro Planner Plus V6.0** MIA lbs \$640

**Project Exchange [import/export utilities for MicroPlanner +]** IMA \$160

**Microclene/Automation Facilities** lbs \$70

**Microphone II** KEW \$373

**Microphone v 1.1** KEW \$239

**Microsoft**

**Microsoft Chart** MIA \$122

**Microsoft Excel** MIA \$563

**Microsoft File** MIA \$230

**Microsoft Flight Simulator** MIA \$71

## Leasing and Rental Finance for Customers

At the MacWorld Expo, we have a financier available at our booth to provide you with competitive leasing and rental arrangements on new or used Macintosh hardware and accessories. In most instances any approved borrower will have finance available within 2 to 4 hours of receipt of their application.

## Important Information

The above is a product listing of Macintosh software and peripherals which StatusGraph may import, distribute and market to our customers.

The need for StatusGraph to provide such a service was brought about mainly because some distributors have been unwilling to import products to meet customer requirements.

Naturally, we would, as always, respect the rights of Australian distributors who have agreements with U.S. vendors. In this regard a few of the products which appear above, for which we may claim an ad hoc distribution right, might be marketed in Australia by other distributors without our knowledge.

The main purpose of the listing, however, is to at least provide our customers with some sort of guideline as to the probable buy price in Australian dollars of new Macintosh products through StatusGraph as a distributor or on behalf of other Australian distributors who we represent as a reseller.

N.B. It is important, for our customers to understand that end-user support for any products purchased may not necessarily be available from StatusGraph. But we're in there trying!

# Do You Have The Standard...

## The Infinity Optical Disk

You may not know that there is an ISO-standard for optical storage. This compatibility standard is essential for data interchangeability between second source vendors.

But some companies have jumped on the "optical bandwagon" with no knowledge of removable technology and have come out with non-standard devices.

Fitting a non-standard optical disk into another drive is like fitting a square peg in a round hole.

Luckily, there is one peripheral company that has been making removable drives since 1985 — PLI. And now the removable experts at PLI have introduced the Infinity Optical.

The Infinity Optical combines unlimited storage capacity and Sony reliability with optical rewritability and the convenience of removability.

"Data hungry," large scale applications are no problem with a 650 MB or 1.3 Gigabytes drive. And four FREE utilities: TurboCache, Turbo Back, TurboOptimizer and TurboSpool; give you the fastest optical drive available.

Interface kits are available for Macintosh and IBM-XT, AT, PS/2, compatibles and AUX.

Sony, IBM, XT/AT/PS/2 and ACE are trademarks of their respective companies.

# Mitsui Expandability – Mac Magic!

Mitsui Computer is Australia's leading supplier of high quality, value-for-money Macintosh peripherals, designed to bring out the magic in your Mac.

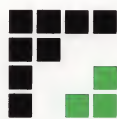

What about the magic of full 24-bit colour desktop publishing and desktop presentation graphics? With the RasterOps ColorBoard 264, your Mac can use the magic of Apple's 32-bit colour QuickDraw. This board is also available for the Mac SE/30 – making RasterOps the first to offer 24-bit colour on the SE/30!

But what about full colour hard copies? On plain paper? Technology not yet available? Look again! Mitsui Computer has pulled another rabbit out of the hat with the Howtek Pixelmaster colour ink-jet printer. It gives you full colour, high resolution printing on to plain bond paper. Come to our stand and see the Pixelmaster's dazzling colours to believe it for yourself.

And look out for the magic of the Barneyscan state-of-the-art 35mm colour scanner. There's the latest in erasable optical storage from PLI – real magic – no illusions!

We also have the product that wowed them in Boston – the product that all Australia has been waiting for.

To see more Mac Magic, come and talk to us on Stand 310.
